

SCHÜCO

Make Sure It's Schüco

For windows and doors

www.schueco.co.uk/home

LET THE LIGHT IN

Creating a home is so much more than simply building a structure and painting the walls. A home provides a feeling of wellbeing and the freedom to embrace our individuality. Home gives us security, belonging and identity.

Schüco doors and windows transform your home: infusing it with natural light and bringing the outside in. Synonymous with engineering excellence and beautiful design for over seventy years, Schüco has been at the forefront of innovation since its founding in Germany in 1951.

With a strong presence in the UK since 1984, Schüco is a well-established name to look for when you're considering elegant, high-quality aluminium doors and windows.

Our network of independent, expertly trained manufacturing and installation partners across the UK and Ireland are ready to work with you to create your dream home.

Invest in a lifetime of quality, light and seamless indoor-outdoor living.

Because home is everything.

MAKE SURE IT'S SCHÜCO

Precision engineered

Schüco is a German engineering giant which uses its technical expertise to design high quality window and door systems that are robust, long-lasting and great looking. It's because of that world class engineering that our doors and windows operate flawlessly for decades, meeting the highest standards for quality, comfort, security and sustainability.

Testing and training

We couple the development of our new products with stringent tests in our technology centre, one of the largest testing centres of its kind. An independently accredited, certified test laboratory it tests everything from smoke and fire protection to burglar resistance to watertightness. In addition, we provide first rate industry accredited training for our manufacturing and installation partners to give you complete confidence in their expertise.

Bespoke

Our range of made-to-measure design options ensure there will be a system that will meet your exact needs. Slim sightlines provide an almost frameless view, with concealed fittings for a minimal appearance. Choose from a range of bespoke customisation options including an array of colours, level thresholds, smart home technology and stylish handles.

Energy efficient

Whether you go for double or triple glazing, you can rest assured that Schüco systems meet the highest standards for thermal performance to help you create a comfortable home. Our doors and windows will easily meet the most stringent building regulations and you can even benefit from gold standard energy efficiency with our Passivhaus-certified products.

Safe and secure

Robust locking systems, hinges and frames help keep your home secure. All our systems have been tested to meet rigorous European and/or UK standards to reliably protect against break-ins. Plus, our door and window systems have Secured by Design accreditation. Safety features such as finger-trap protection mean they are safe for the whole family to use.

Sustainable

We take a 360° approach to sustainability, looking at the whole lifecycle of our products. Our doors and windows are built to last, which means a smaller environmental footprint. We offer recycled aluminium and when our products reach the end of their useful life they can be taken apart and recycled.

PANORAMIC SLIDING DOOR

ASE 51 PD

The latest Schüco sliding door offers the ultimate design flexibility. Extremely slim sightlines combine with oversized panels to bring the maximum amount of light into your home. Different opening configurations provide complete flexibility to choose which panels should slide: all of them if you wish. Longing for a corner sliding door? Make it a reality with Schüco.

The locking mechanism is fully integrated within the door frame for a sleek finish. To complete the minimalist appearance, the outer door frame can be integrated within the building's structure. With the option of a completely level threshold this creates a seamless connection between the inside and outdoors.

	Max. panel width	2900 mm
	Max. panel height	2750 mm
	Face width of interlock section	32 mm
	Level threshold available	Yes
	U-value	$\geq 1.3 \text{ W/m}^2\text{K}$

LIFT-AND-SLIDE DOOR

ASE 60/80.HI

The Schüco lift-and-slide sliding door is meticulously engineered for smooth and easy use, with an elegant design that is sure to elevate your home. The lift-and-slide system allows you to easily operate the door, no matter how large or heavy the panels. The optional Schüco SmartStop fitting ensures the door always closes gently to protect little fingers.

The ASE 60 boasts excellent thermal values, but if you're looking to go the extra mile, the ASE 80.HI version provides even higher thermal performance, adhering to Passivhaus standards. Certified for burglar resistance up to RC2, you can enjoy peace of mind knowing your home is safe and secure.

	Max. panel width	3500 mm
	Max. panel height	3500 mm
	Face width of interlock section	40 mm
	Level threshold available	Yes
	U-value	ASE 60 1.1 W/m ² K ASE 80.HI 0.99 W/m ² K

BIFOLD DOOR

AS FD 75/90

The Schüco bifold door allows you to maximise your indoor-outdoor space. Folding door panels up to 1500 mm wide mean fewer panels are required per opening for more glass and less frame. These large panels combine with very slim sightlines, among the narrowest on the market, to offer greater views with minimal interruption and flood your home with natural light.

Our precision engineering provides long-lasting smooth operation no matter the size of the doors. Security tested to PAS 24 and RC2, the bifolds give proven security as well as achieving outstanding thermal insulation to offer the ultimate weather protection, keeping you comfortable all year round.

	Max. panel width	1500 mm
	Max. panel height	3500 mm
	Face width of interlock section	90 mm
	Level threshold available	Yes
	U-value	1.0 W/m ² K

WINDOWS

AWS 80 SC

Complete your home with the timeless design of our slimline aluminium casement window. Fully concealed fittings allow for clean lines and these outward-opening windows can be side-hung or top-hung, whichever you prefer. Their excellent thermal insulation and enhanced security will help create a safe, comfortable home.

Design your windows to suit the style of your home with dual colour coating options and a range of stylish handles to choose from. Engineered for smooth operation even with the largest windowpanes and requiring minimal maintenance, these windows represent a sound investment in your home.

	Max. width	1350 mm*
	Max. height	1450 mm*
	Face width – fixed units	46 mm
	Face width – opening units	74 mm
	U-value	1.2 W/m ² K

* Depending on glass type and configuration

TILT AND TURN WINDOWS

AWS 70.HI

For those seeking a top-tier energy efficient window with a sleek modern design, this Schüco window system is an exceptional choice. Choose from a range of opening types to suit your home's design, including our Tiptronic option which enables windows to open automatically via a sensor or at the touch of a button.

The system's flexibility allows it to achieve any design and you can choose from additional options such as Schüco sun shading and ventilation systems. The window's outstanding thermal performance will lower your energy bills while keeping your home warm and comfortable whatever the weather.

Opening options

Fixed | Top Hung | Side Hung | Tilt and Turn | Tiptronic

	Max. width	1700 mm*
	Max. height	2500 mm*
	U-value	1.5 W/m ² K*

* Subject to configuration.

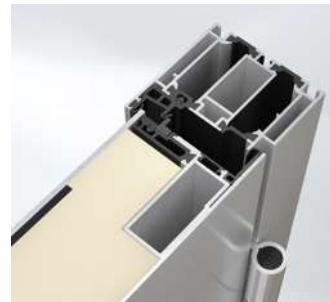

FRONT DOOR

AD UP

The Schüco front door system blends high quality aesthetics with impressive engineering. Offering outstanding thermal efficiency, weather performance, and PAS 24 security, it is guaranteed to keep your home safe and warm. For a truly elegant finish, the door is available with concealed drop seal technology, for barrier-free access to your home.

The system caters to a variety of door designs, available in a vast range of colours and finishes. This ensures that your door will complement your home and align with your personal style. For the technically minded, the system is compatible with Schüco Smart Home technology so that the door can be opened via a fingerprint touchpad or using the Schüco app.

	Max. width	1250 mm
	Max. height	2500 mm
	Compatible with smart home system	Yes
	Level threshold	Yes

FRONT DOOR

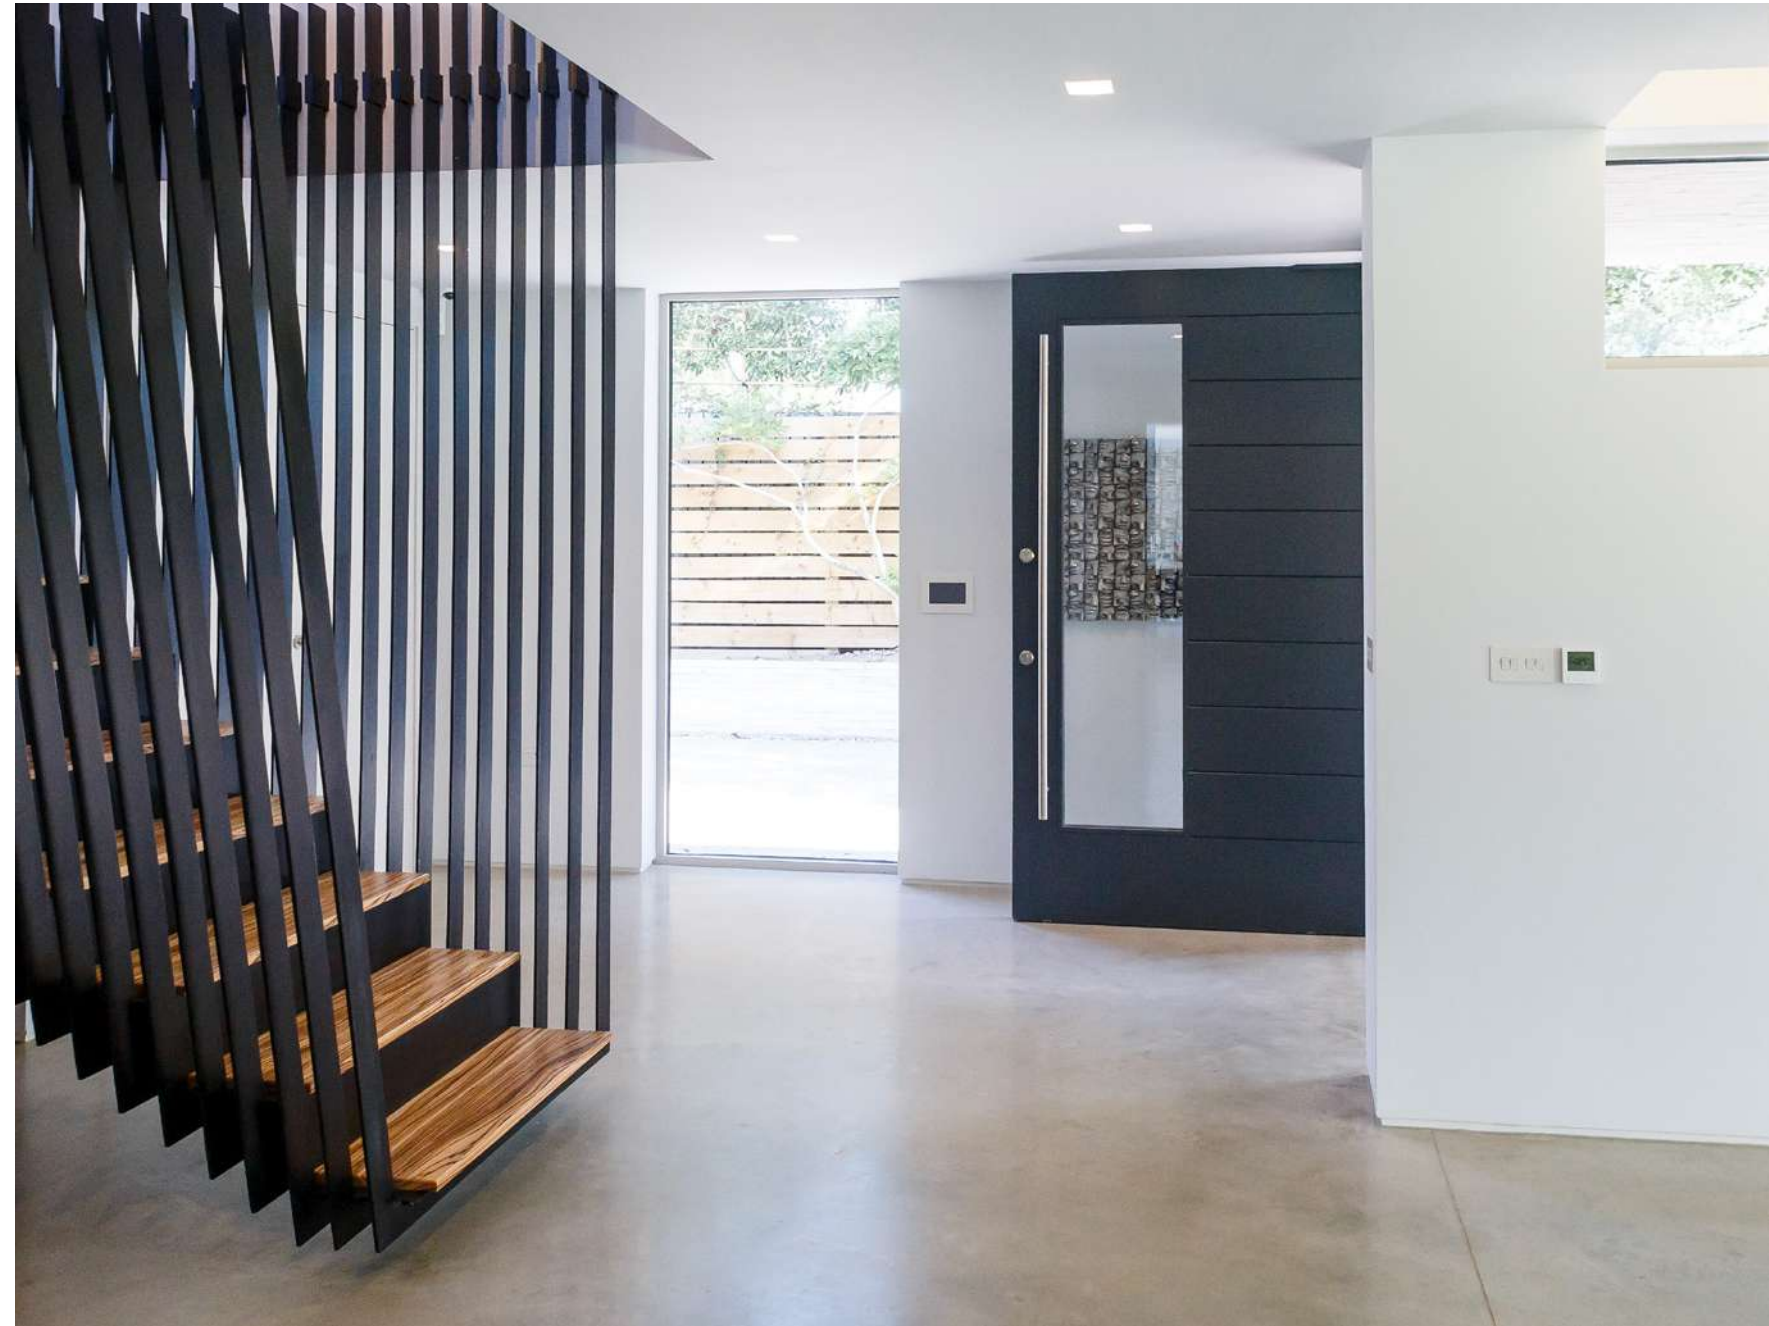

ADS 70.HI

Looking for a sophisticated front door with excellent thermal performance? Search no further than the ADS 70.HI. The door will be configured to your exact requirements. Choose between solid panels or glazed features, discreet handles that are flush with the surface, or bold rails that actively invite you to touch them.

You can add a variety of additional security and automation systems such as Schüco Fingerprint Easy, a biometric fingerprint access system to unlock your door at a touch. Offering elegant design and high-quality engineering, create the perfect entrance to your home.

	Max. width	2500 mm
	Max. height	1250 mm
	Compatible with smart home system	Yes*
	Level threshold	No

* Door control system options available.

SMART MAINTENANCE AT YOUR FINGERTIPS

You keep a maintenance log for your car, so why not your doors and windows? Our Internet of Façades (IoF) ID is a small tag with a big impact. This discrete tag gives each window or door a unique digital identity, storing all the relevant information in one place.

With the Schüco IoF app, simply scan the tag with your smartphone to access product details, maintenance history and location within your home.

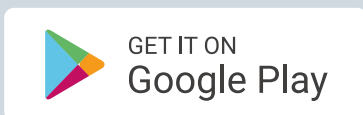

Have an issue with your Schüco product? Scan the tag to request a service from one of our experts. Selling your home and want to provide the maintenance record for your sliding doors? Want to match the handle of a new door to an existing one? Keen to find out how to recycle your window at the end of its useful life?

Access everything you need with the click of a button.
It couldn't be simpler.

High quality hinges and handles designed to last for years to come

We offer a wide spectrum of colours for window and door frames to perfectly match your unique style and vision.

A SPLASH OF COLOUR

Elevate your home with an extensive choice of colours and finishes for your Schüco system. The powder-coated aluminium frames not only look great but also provide weather-resistant performance, easy maintenance, and exceptional impact and scratch resistance.

Whether you choose understated elegance or bold accent colours, our diverse palette of hard-wearing and fade-resistant coatings guarantees vibrancy for years to come. You can even choose different colours for the interior and exterior of your installation, for a truly personalised finish.

THE FINISHING TOUCHES

Your Schüco system should be as individual as your home. Choose from our range of chic yet reassuringly robust handles to make your design statement. The ergonomic engineering of our handles, designed especially for Schüco, ensures flawless operation for life.

Our high-quality, stainless-steel carriages and rollers guarantee smooth operation and enable precise positioning of open windows and doors. Our bifold doors feature a strong magnetic catch for added security when opening a single door panel.

Schüco also offers concealed hinges, which lie completely hidden to give a seamless look and provide effective protection from dirt and weather.

YOUR SCHÜCO JOURNEY

01

Get inspired

Explore our website and social media for project inspiration. Visit our showroom, or a partner's, to discover our products and experience Schüco quality first-hand.

02

Find your partner

Visit our website to find your local Schüco partner who is expertly trained by us to manufacture our systems. They will be ready to support you with your home project.

03

Finalise your vision

Discuss your requirements with your Schüco partner. They will consider architectural plans/site surveys to provide product expertise, advice and a detailed quotation*.

04

Bring it to life

Once chosen, your bespoke products will be skillfully manufactured by your Schüco partner, who will also coordinate their careful installation into your home.

05

Enjoy your new home

Now you can enjoy the natural light that fills your home. You can enjoy the newfound connection to the outside. And you can enjoy it knowing that this quality will last.

*Your agreement and guarantee will be held with your independent Partner installer, not directly with Schüco.

ONE CLICK IS ALL IT TAKES
